

Nour Bader Research Assistant

Nour Bader, a graduate of Qatar University with a Bachelor's degree in Chemistry followed by a Master's degree in Materials Science and Technology. Since 2022, she has served as a research assistant at the Center of Advanced Materials, where she contributes significantly to pioneering research in polymers and composites. Simultaneously, Nour plays a crucial role as an editorial assistant at Emergent Materials Journal, facilitating the dissemination of groundbreaking research within the scientific community. Her research focuses on the synthesis, characterization, and applications of advanced materials tailored to various fields such as renewable energy, and sustainable manufacturing. Nour's journey is characterized by dedication, innovation, and a steadfast commitment to making a meaningful impact in her field, inspiring others to pursue excellence and embrace the endless possibilities of discovery.
